4. Voting through electronic means :

In compliance with provisions of Section 108 of the Companies Act, 2013 and Rule 20 of the Companies (Management and Administration) Rules, 2014 read with Companies (Management and Administration) Amendment Rules, 2015, and Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company is pleased to provide to its members facility to exercise their right to vote on resolutions proposed to be passed in the Meeting by electronic means.

Shareholders can also cast their vote electronically using CDSL's mobile app m-Voting available for android, iPhone and windows based mobiles. The m-Voting app can be downloaded from google play store, App store and the windows phone store respectively. Please follow the instructions as prompted by the mobile app while voting on your mobile.

The facility for voting through ballot paper will also be made available at the Annual General Meeting (AGM) and the members attending the AGM who have not already cast their votes by e-voting shall be able to exercise their right at the AGM through ballot paper. Members who have cast their votes by e-voting prior to the AGM may attend the AGM but shall not be entitled to cast their votes again. The instructions for e-voting are given below.

The Board of Directors has appointed Mr. Rupinder Singh Bhatia, Practicing Company Secretary (Membership No. FCS 2599), as scrutinizer for conducting the e-voting process in a fair and transparent manner.

The Scrutinizer shall immediately after the conclusion of voting at the AGM, will first count the votes cast at the AGM by Polling Papers and thereafter unlock the votes casted through remote e-voting in the presence of at least two witnesses not in the employment of the Company. The results of remote e-voting and votes casted at the meeting shall be aggregated. The Scrutinizer shall make, within a period not exceeding two days from the conclusion of the AGM; a consolidated scrutinizer's report of the total votes cast in favor or against, if any, to the Chairman of the meeting or a person authorized by him in writing.

The Results of voting along with the report of the Scrutinizer shall be placed on the website of the Company www.prakashwoollen.com and on the website of CDSL, immediately after the declaration of result by the Chairman of the meeting or a person authorized by him. The results shall also be communicated to the stock exchanges where the shares of the Company are listed.

The route map along with prominent land mark for easy location of the 43rd Annual General Meeting venue is printed on the last page of the Annual report.

The instructions for shareholders voting electronically are as under:

- (i) The voting period begins on **24th August, 2024 (10:00 Hours (IST)) and ends on 27th August, 2024 (17:00 Hours (IST))**. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of **23rd August, 2024** may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1. Access through Depositories CDSL/NSDL e-voting system in case of individual shareholders holding shares in demat mode.

- (iv) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1) OVERVIEW OF THE ECONOMY

Global Economy

The global textile industry impacts nearly every human being on the planet. The global textile industry is a manufacturing sector that’s currently worth nearly three trillion dollars (in U.S. dollars) and includes the production, refinement, and sale of both synthetic and natural fibers used in thousands of industries. The global textile market is broken into a number of sectors shown in this chart:

As you can see, the textile industry encompasses a broad and diverse range of products with an even wider range of applications. That diversity is one of many factors that makes the textile industry one of the most vital to the economic well-being of people all over the world. (Source: <https://study.com/academy/lesson/global-textile-industry.html>)

Indian economy

India’s textiles sector is one of the oldest industries in the Indian economy, dating back to several centuries. The industry is extremely varied, with hand-spun and hand-woven textiles sectors at one end of the spectrum, with the capital-intensive sophisticated mills sector at the other end. The fundamental strength of the textile industry in India is its strong production base of a wide range of fibre/ yarns from natural fibres like cotton, jute, silk, and wool, to synthetic/man-made fibres like polyester, viscose, nylon and acrylic.

The decentralized power looms/ hosiery and knitting sector form the largest component of the textiles sector. The close linkage of textiles industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles makes it unique in comparison to other industries in the country. India’s textiles industry has a capacity to produce a wide variety of products suitable for different market segments, both within India and across the world. (Source:

In order to attract private equity and employee more people, the government introduced various schemes such as the Scheme for Integrated Textile Parks (SITP), Technology Upgradation Fund Scheme (TUFS) and Mega Integrated Textile Region and Apparel (MITRA) Park scheme.(Source: <https://www.ibef.org/industry/textiles>)

2) ANALYSIS AND REVIEW

The textile industry is a crucial sector of the global economy, encompassing the production of fibers, yarns, fabrics, and finished textile products. Here’s a comprehensive analysis and review of the textile industry:

Global Overview:

Market Size and Growth: The textile industry is one of the largest in the world, with a global market size valued in the hundreds of billions of dollars annually. It has been experiencing steady growth, driven by increasing demand for clothing, technical textiles, and home textiles.

Key Players: Major players include countries like China, India, Bangladesh, Vietnam, and Turkey, which are significant producers and exporters of textiles and apparel. Developed countries like the United States, Germany, and Japan also play important roles in high-end textile manufacturing.

PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED

Supply Chain Dynamics: The industry is characterized by complex global supply chains, where raw materials (like cotton, wool, and synthetic fibers) are sourced globally, processed into yarns and fabrics, and then manufactured into finished goods

Market Segments:

Apparel: This segment includes clothing for men, women, and children, as well as fashion accessories. It is the largest segment of the textile industry.

Home Textiles: Products like bedding, towels, curtains, and carpets fall under this category.

Technical Textiles: These are functional textiles used in applications such as automotive, healthcare, construction, and industrial sectors.

3) Strengths and Weakness

A textile SWOT analysis is a structured planning method that is used to evaluate the strength, weaknesses, opportunities, and threats involved in a project or a business venture. A textile SWOT analysis can be carried out for a place, person, or product. A textile industry SWOT analysis will help the proper management to know about the ins and outs of this sector.

Textile Industry SWOT Analysis Strengths

Strengths are a key part of this textile industry swot analysis. This will help one to pinpoint the strong points of their business. This will most definitely result in the improvement of the business. Some of the strengths of the textile industry swot analysis are enlisted below:

Flexible Labor Market: This sector in particular needs an abundance of manpower. However, in Asia, the price of labor is very low. The labor rates in the textile industry (compiled by Warner International) show that the average hourly wage rates for Bangladesh, India, Pakistan, and Sri Lanka were respectively 0.23, 0.56, 0.49, and 0.39 USD.

Worldwide Demand: Clothing articles are one of the basic human needs. Everyone wants to have a good quality product for a lower price. That's where the textile industries come in. They offer decent clothes for a reasonable price. This is the main reason, they get many buyers.

Involved Industries Increasing: In modern society, many support industries are growing. These industries form a relationship of mutualism with the textile industry. Both parties are dependent on each other. These industries are dyeing, finishing, embroidery, printing, etc.

Strong backward linkage facilities: This industry possesses strong backward linkage facilities. This has proven to be a great asset on multiple occasions. This causes this sector to improve more in its own way. Also, it provides the industry with some much-needed support.

Presence of economic zones: An economic zone is a type of facility that ensures that the buyer gets to buy many products with the least tax possible. This encourages buyers to buy more from this industry. This, as a result, allows the textile SWOT industry to make more sales and earn many profits. (Source: <https://swothub.com/textile-industry-swot-analysis/>)

Textile Industry SWOT Analysis Weaknesses

This part of the textile industry swot analysis will solely focus on the weaknesses of this sector. These points are the ones that hold back this industry's overall growth. These are enlisted below:

Lack of modern machinery: The textile industry lacks technology-oriented machinery and production systems. If these aren't updated then they could take a heavy toll on its production. This will later reflect in its sales and profits.

Unable to go with the flow: Once a steady line of the production system is in place, it is very hard to suddenly change it to accommodate any new type of clothing article. As a result, it lacks product diversification. It also has a very short lead time which is not good for this line of work. It holds back the whole industry.

Lack of forecasting: Lack of forecasting is the main cause of production setbacks. If an industry is unable to provide a good forecast, it often causes major issues in the marketing sector. The quantity available does not match the assumed quantity.

Depending on some specific buyers: Dependency on a few particular buyers can be the downfall of this industry. Many of the farmhouses depend on a few of their known customers for their sales. They do not get many new buyers most of the time and this causes their sales rate to pummel once any of these buyers drop out or change their choice of farmhouses.

Higher bank interest and insurance policy: This industry has to face a lot of unfair treatment. Especially when it comes to banks and insurance companies. Banks require a high interest while taking loans, which is illogical. Many insurance companies, if not all, have high-priced insurance policies with partial conditions. The industry has to suffer for this. (Source: <https://swothub.com/textile-industry-swot-analysis/>)

4) Opportunities and Threats

Textile Industry SWOT Analysis Opportunities

A textile industry SWOT analysis offers the best possible opportunities for the textile industry. This will clearly show which part of the sector could be so much better with a little push. Let's take a look at them:

PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED

Buyer attention to the Asian market: Many international buyers are more interested in the Asian section of the market. This may be a golden opportunity for Asian industries to take the market by storm. It will also be a huge turning point for this industry in general.

Open costing facility for the international buyer: Many international customers find their interest in this field being renewed by the open costing facility. This gives them a huge advantage to draw more buyers in.

Government and non-government training programs: There are a lot of people who work in this field. Even though they have curiosity, they often lack the skills that are needed. So, these government and non-government training programs can help them to enhance their skill set. This provides the chance for improvement in this sector.

Buyer initiatives for productivity: In this field, many times buyers take responsibility to initiate the push for productivity. This shows that the buyers are actually interested in the said products. So, this gives a huge boost to morale.

(Source: <https://swothub.com/textile-industry-swot-analysis/>)

Textile Industry SWOT Analysis Threats

Textile SWOT analysis threats can come from other competitors, manufacturers, and from world economics.

In a textile SWOT analysis, the textile sector may face threats from other industries, such as those that manufacture synthetic materials, from consumer demand changes, price swings for raw materials, trade restrictions, and shifts in consumer preferences. It's crucial to take into account how technological advancements may affect production processes because they may cause disruptions and raise competition. The textile industry also needs to be aware of possible supply chains disruptions like pandemics, natural disasters, and labor disputes.

Any SWOT analysis that has helped the business in any way has a stunning compilation of the factors that pose threats to it. A textile industry swot analysis will help to highlight these threats. They are enlisted below:

E-shops and on-demand shops: There are many e-shops and on-demand shops that are mushrooming their way into the market. Now, the market actually has some internal competition going on. So, these new shops often end up stealing a lot of customers away from the industry.

High making cost: The making cost for this industry is quite high and very hard to achieve. So this makes having profit very hard.

Freight on board cost: The seller often has to take responsibility for goods, freight, and marine insurance. This is a convenient system no doubt. But if an accident happens the loss is very hard to deal with. This will majorly impact its earnings of it.

Political and environmental crisis: Countries that have a troublesome political environment have fewer buyers than those that don't have them. Environmental issues can also influence the flow of buyers in a country.

5) Risk and Concerns

One of the oldest industries in the world is textile production. Because the majority of businesses cater to the worldwide garment, fashion and textile market, it's also one of the most international sectors. However, the dynamic global environment has altered consumer tastes, increased cost volatility, and introduced fresh hazards to the environment. Risk management in the textile and fashion industry involves identifying, assessing, and mitigating potential risks that can impact the business operations and objectives. The necessity of risk management in the textile and fashion industry cannot be emphasized given the ferociously uncertain nature of the year 2020. Nowadays, networks with the highest resilience are prioritized by businesses.

Types of Risks in Textile and Fashion Industry:

External risks:

In a supply chain, exposure to external hazards can happen both upstream and downstream and is influenced by market, environmental, and business factors.

Supply risks:

Lack of access to the materials needed for production results in supply risks. Supply outages can cause delays and strained relationships with customers

Demand risks:

Demand risks are related to underestimating the market's attraction to your offerings. They may result from a lack of understanding of consumer trends or unexpected shifts in the demand environment.

Environmental risks:

When your supply chain is negatively impacted by economic, political, ecological, or social variables, this is referred to as an environmental risk. The China-US trade conflict and the COVID-19 pandemic are two notable examples.

Internal risks:

As contrast to external dangers, are mostly under your control. By doing an audit of your workflows, communications, planning, and processes to see what is working and what may be improved, you can find them.

Manufacturing risks:

Any potential disruption to your production or process is a manufacturing risk. They can result from unhealthy or broken machinery, overworked labour, insufficient production management, and many other things.

Business risk:

Internal business risks are those that relate to adjustments that inevitably impact how you communicate with your stakeholders and business partners. Examples include changing up your management team's key players or implementing new customer communications guidelines.?

Planning and control risks:

It might result in the purchase of unneeded equipment or the loss of productive inputs due to a poor or inaccurate appraisal of your company's demands. (Source: <https://textilelearner.net/risk-management-in-textile-and-fashion-industry/>)

Risk Management in Textile and Fashion Industry:

- a) You can move on to management after analyzing and comprehending the variety of hazards that your business faces. The risk management strategy you'll employ depends on how likely it is for a certain danger to materialize and how severe its consequences will be.
- b) For instance, you can decide to keep or accept low-priority industry risks. On the other side, you must take steps to lessen the risk's likelihood of happening or completely avoid it. It's also beneficial to concentrate on actions that lessen the consequences if the danger materializes .
- c) Reliable action and reference guides can be found in diligent record-keeping of all risk management processes and policies. You'll probably encounter poor documentation, which can lead to protocol ambiguities that impair risk management effectiveness.
- d) Use ethical business practices as a requirement – Create policies that outline your organization's dedication to conducting business in a manner that respects both the environment and human rights.
- e) Create a responsible sourcing strategy. Create a strategy that ranks operations according to risk. It can be helpful to identify and priorities focus areas if you rank the hazards according to likelihood and severity.
- f) Work together with your suppliers to find solutions to issues – After identifying risks in your organization, collaborate with all stakeholders to investigate all options and overcome obstacles. The systemic problems you're experiencing won't likely be resolved by terminating a contract.
- g) Make supply chain visibility a top priority. Gather data about your suppliers along the whole supply chain. By doing this, you'll be able to identify the weaker employees and take their needs into account. Reciprocity, for instance, will help you stay ahead of the continuously changing threats by enhancing visibility across your entire organization to better reduce business exposure and manage risks.
- h) It's critical to distinguish between supply chain risk management and excessively defensive risk mitigation because the latter might impede development. You run the risk of limiting innovation, which could be detrimental to your ability to expand, if you completely ban taking calculated risks.
- i) The development of technology has expanded the range of risk management options and can guarantee that you have the knowledge required to take these crucial calculated risks.
- j) An effective supply chain risk map will segment the components that require management, which is best accomplished by creating a framework. The so-called PPRR model, one of the most popular for controlling supply chain risk, is based on four pillars:
 - Implementing strategies to reduce or stop possible supply chain hazards from happening is what is meant by prevention.
 - Preparedness entails creating a backup plan in case the supply chain is disrupted. This is also known as being "risk ready."
 - Response is about carrying out your backup plan to lessen the effects should an interruption occur. In order to avoid confusion about roles when it's time to take action, this calls for excellent communication amongst the people concerned.
 - Recovery entails taking the necessary actions to restore business as soon and effectively as possible. This might involve anything from wise resource allocation to finding alternative producers for production inputs.

6) Internal Control Systems and their Adequacy

The Company's internal audit system has been continuously monitored and updated to ensure that assets are safeguarded, established regulations are complied with and pending issues are addressed promptly. The Audit Committee reviews reports presented by the internal auditors on a regular basis. The Committee makes note of the audit observations and takes corrective actions, if necessary. It maintains constant dialogue with statutory and internal auditors to ensure that internal control systems are operating effectively. Apart from the above the company has engaged M/s Pulkit Rastogi & Co. - Amroha, Chartered Accountant, to conduct Internal Audit during the year 2023-24.

PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED

7) Financial and operational performance

The financial statements have been prepared in compliance with the requirements of the Companies Act, 2013 and Generally Accepted Accounting Principles in India. Please refer Directors' Report in this respect.

The Company is engaged in the blankets business only. Therefore there is only one reportable segment in accordance with the Accounting Standards on Segment Reporting (Ind AS 108).

There are no material changes or commitments affecting the financial position of the Company which have occurred between the end of the financial year and the date of this Report.

8) Human Resources and Industrial Relations

Human resource is considered as the most valuable of all resources available to the Company. The Company believes that the quality of the employees is the key to its success and is committed to equip them with skills, enabling them to seamlessly evolve with ongoing technological advancements. During the year the no. of employees associated with the company were 419.

The role of human resource management in organization is at counter stage. Managers are aware that HRM is a function that must play a vital role in the success of organization. It is an active participant in charting the strategic course an organization must take place to remain competitive, productive and efficient. Its focal point is people, people are the life blood of the organization. The uniqueness of HRM lies in its emphases on the people in work setting and its concerns for the well living and comfort of the human resources in an organization.

Industrial relation is the one of the major component which determine the potentiality and stability of the employees as well as helps to enrich the productivity of the business establishments. Textile industries were contributing more to the Indian economy in terms of export earnings as well as generating employment opportunities. The relationship between the employees and employers determine the productivity of the enterprises. If the industrial relation is good the enterprise will attain the success in all the side especially in terms of producing the materials without much defects.

9) Key Financial Ratios

Changes in key financial ratios are as under:

S. No.	Ratio	2023-2024	2022-2023	% Variance	Reason for variance
1	Debtors turnover Ratio	20.92	22.39	- 6.57	-
2	Inventory turnover Ratio	3.52	6.04	- 41.71	3
3	Interest Coverage ratio	2.29	0.51	349.02	4
4	Current Ratio	1.08	1.16	- 7.09	1
5	Debt Equity Ratio	1.09	1.07	2.42	2
6	Operating profit margin (%)	5.28	- 1.66%	418.07	4
7	Net profit Margin (%)	0.94	- 4.86	119.34	4
8	Return on Net Worth (%)	2.00	- 10.69	118.71	4

Reason for variance

- 1 Usage of Internal accruals in new projects caused decline in current ratio and increase in net capital turnover ratio.
- 2 New Term loans for new projects caused increase in the ratio.
- 3 Increase in inventory reduces the ratio.
- 4 Net profit/ loss in the current year caused improvement/decline in the ratio.

PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED

INDEPENDENT AUDITORS' REPORT

To the Members of Prakash Woollen & Synthetic Mills Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Prakash Woollen & Synthetic Mills Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the Act) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards (Ind AS) specified under section 133 of the Act, of the state of affairs of the Company as at March 31, 2024, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to communicate in our report.

Information other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. When we read the above reports, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards of Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for explaining our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our Independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosures about the matter or when, in extremely circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by Section 197(16) of the Act, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under Section 197 read with Schedule V to the Act.

As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid standalone financial statements comply with the IndAS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED

- e) On the basis of the written representations received from the directors as on 31st March, 2024 and taken on record by the Board of Directors, none of the directors is disqualified as on 31 st March, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure B”.
- g) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i) The Company has disclosed the impact of pending litigations on its financial position in its financial statements.
 - ii) The Company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv) (a) The management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person or entity, including foreign entity (Intermediaries), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company (Ultimate Bneficiaries) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (b) The management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the company from any person or entity, including foreign entity (Funding Parties), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (c) Based on the audit procedures that have been considered reasonable and appropriae in the circumstances, noothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11, as provided under (a) and (b) above, contain any material misstatement.
- v) The company has not declared or paid dividend during the year.
- vi) Based on our examination, which included test checks, the company has used accounting softwares for maintaining its books of account for the financial year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated through out the year for all the relevant transactions recorded in the softwares. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with.

As provision to Rule 3(1) of the Cmpanies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

ANNEXURE A TO THE AUDITORS' REPORT OF EVEN DATE TO THE MEMBERS OF PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED, ON THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024

ANNEXURE A

Based on the audit procedures performed for the purpose of reporting a true and fair view on the standalone financial statements of the company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) (A) The company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
(B) The company does not have intangible assets, so no requirement of maintaining proper records of intangible assets.
- (b) The Company has a regular programme of physical verification of its property, plant and equipment by which property, plant and equipment are verified once in a year. In accordance with the programme, property, plant and equipment were verified during the year and no material discrepancies were noticed on such verification. In our opinion, the periodicity of physical verification is reasonable having regard to the size of the company and the nature of its assets.
- (c) The title deeds of all immovable properties (which are included under the Note 2A – Property, plant and equipment) are held in the name of the company.
- (d) The company has not revalued any of its Property, Plant and Equipment and intangible assets during the year.
- (e) No proceedings have been initiated during the year or are pending against the company as at March 31, 2024 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- (ii) (a) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies were noticed on such verification.
- (b) the company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets; the quarterly returns or statements filed by the company with such banks or financial institutions are in agreement with the books of account of the Company.
- (iii) The company has not, during the year, made investments in, provided any guarantee or security or granted any loans or advanced in the nature of loans, secured or unsecured, to companies, firm, limited liability partnerships or any other parties. So sub clauses (a) to (f) are not applicable.
- (iv) The company complies with the provisions of Section 185 and 186 of the Companies Act, 2013 in respect of loans granted, investments made and guarantees and securities provided, as applicable.
- (v) The company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order is not applicable.
- (vi) The maintenance of cost records has not been specified by the Central Government under sub-section (1) of section 148 of the Companies Act for the products which company produces. Hence, reporting under clause (vi) of the Order is not applicable to the company.
- (vii) (a) The Company has generally been regular in depositing the undisputed statutory dues including Goods and Service tax, Provident fund, Employees' state insurance, Income tax, Sales tax, Service tax, Duty of customs, Duty of excise, Value added tax, Cess and other material statutory dues, as applicable, with the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year end for a period of more than six months from the date they became payable.
- (b) There are no dues referred to in clause (a) above which have not been deposited on account of any dispute except of (i) PF amounting to Rs 26.69 lakh out of which Rs 8 lakh have been deposited, the Appeal before EPFAT New Delhi is pending.
- (viii) There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- (ix) (a) The company has not defaulted in repayment of loans or borrowing or interest thereon to a lender during the year.
- (b) The company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
- (c) The term loans were applied, prima facie, for the purpose for which the loans were obtained.
- (d) On an overall examination of the financial statements of the company, funds raised on short term basis have, prima facie, not been used during the year for long term purposes by the company.
- (e) On an overall examination of the financial statements of the company, the company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.
- (f) The company has not raised any loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies and hence reporting on clause 3(ix)(f) of the Order is not applicable.
- (x) (a) The company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.

PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED

- (b) During the year, the company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally convertible) and hence reporting under clause 3(x)(b) of the Order is not applicable.
- (xi) (a) No fraud by the company and no material fraud on the company has been noticed or reported during the year.
- (b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- (c) The company has not received any whistle blower complaints during the year and hence reporting under clause 3(xi)(c) of the Order is not applicable.
- (xii) The company is not a nidhi company and hence reporting under clause 3(xii) of the Order is not applicable.
- (xiii) In our opinion, all transactions with the related parties are in compliance with section 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the Financial Statements as required by the applicable accounting standards.
- (xiv) (a) In our opinion, the company has an adequate internal audit system commensurate with the size and the nature of its business.
- (b) We have considered, the internal audit reports for the year under audit, issued to the company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- (xv) In our opinion during the year, the company has not entered into any non- cash transaction with its directors or persons connected with its directors, and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the company.
- (xvi) (a) In our opinion, the company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a),(b) and (c) of the Order is not applicable.
- (b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is applicable.
- (xvii) The company has not incurred cash losses during the financial year covered by our audit but in the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors of the company during the year.
- (xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.
- (xx) (a) There are no unspent amounts towards Corporate Social Responsibility (CSR) on other than ongoing projects requiring a transfer to a Fund specified in Schedule VII to the Companies Act in compliance with second proviso to sub-section (5) of Section 135 of the said Act. Accordingly, reporting under clause 3(xx)(a) of the Order is not applicable for the year.
- (b) In respect of ongoing projects, there are no unspent Corporate Social Responsibility (CSR) amounts as at the end of the previous financial year requiring a transfer to a Special account within a period of 30 days from the end of the said financial year in compliance with the provision of section 135(6) of the Act.

PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED

ANNEXURE B TO THE AUDITORS' REPORT OF EVEN DATE TO THE MEMBERS OF PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED, ON THE STANDALONE FINANCIAL STATEMENT FOR THE YEAR ENDED 31 MARCH 2024

ANNEXURE B

Auditors Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of Prakash Woollen & Synthetic Mills Limited (formerly known as Prakash Woollen Mills Limited), ("the Company") as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that
 - (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
 - (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
 - (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED

NOTES TO THE FINANCIAL STATEMENT FOR THE YEAR ENDED 31ST MARCH 2024

Note :- 1 - STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

I. Background

Prakash Woollen & Synthetic Mills Limited ('the Company') incorporated in India is a leading Indian Textile Company. The Company has its wide network of operations in domestic market. The Company sells its product through multiple channels including wholesale, retail and through agents etc.

II. Significant Accounting Policies Followed By The Company

(a) Basis Of Preparation

(i) Compliance With Ind AS

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act. The accounting policies are applied consistently to all the periods presented in the financial statements.

(ii) Historical Cost Convention

The financial statements have been prepared on a historical cost basis, except for the following:

- 1) certain financial assets and liabilities that are measured at fair value;
- 2) assets held for sale - measured at lower of carrying amount or fair value less cost to sell;
- 3) defined benefit plans - plan assets measured at fair value;

(iii) Current / non-current classification

The company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- ◆ Expected to be realised or intended to be sold or consumed in normal operating cycle
- ◆ Held primarily for the purpose of trading
- ◆ Expected to be realised within twelve months after the reporting period, or
- ◆ Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- ◆ It is expected to be settled in normal operating cycle
- ◆ It is held primarily for the purpose of trading
- ◆ It is due to be settled within twelve months after the reporting period, or
- ◆ There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The company classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The company has identified twelve months as its operating cycle.

(iv) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

(b) Use Of Estimates And Judgments

The estimates and judgments used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the period in which the results are known/materialised.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

(c) Property, Plant And Equipment

The Company has applied for the one time transition exemption of considering the carrying cost on the transition date i.e. April 1, 2016 as the deemed cost under IND AS. Hence regarded thereafter as historical cost.

Land is carried at cost. All other items of property, plant and equipment are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Depreciation Methods, Estimated Useful Lives And Residual Value

Depreciation on Buildings, Plant and Equipment, Furniture & fixtures, Vehicles and office equipments, is provided on a Straight Line Method over the estimated useful lives of assets.

The Company depreciates its property, plant and equipment over the useful life in the manner prescribed in Schedule II to the Act, and management believe that useful life of assets are same as those prescribed in Schedule II to the Act, except for (i) Solar power plant which based on an independent technical evaluation, life has been estimated as 25 years (on a single shift basis), (ii) parts of some items of property, plant and equipment that require replacement at regular intervals, which are different from that prescribed in Schedule II to the Act.

Useful life considered for calculation of depreciation for various assets class are as follows-

<u>Asset Class</u>	<u>Useful Life</u>
Building	30 years
Plant and Machinery (on single shift basis)	15 years
Furniture and Fixtures	10 years
Office Equipment	5 years
Vehicles	8 years
Solar Power Plant	25 years

The residual values are not more than 5% of the original cost of the asset. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

In case of pre-owned assets, the useful life is estimated on a case to case basis. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss.

(d) Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

(e) Inventories

Inventories of Raw Materials, Work-in-Progress, Stores and spares, Finished Goods and Stock-in-trade are stated 'at cost or net realisable value, whichever is lower'. Goods-in-Transit are stated 'at cost'. Cost comprise all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost formulae used are 'First-in-First-out', 'Weighted Average cost' or 'Specific identification', as applicable. Due allowance is estimated and made for defective and obsolete items, wherever necessary.

(f) Investments And Other Financial Assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- (1) those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and
- (2) those measured at amortised cost. The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through the Profit and Loss are expensed in the Statement of Profit and Loss.

Debt Instruments:

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments into following categories:

(1) Amortised Cost:

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method.

- (2) **Fair Value Through Profit And Loss:** Assets that do not meet the criteria for amortised cost are measured at fair value through Profit and Loss. Interest income from these financial assets is included in other income.

Equity Instruments:

The Company measures its equity investment other than in subsidiaries, joint ventures and associates at fair value through profit and loss. However where the Company's management makes an irrevocable choice on initial recognition to present fair value gains and losses on specific equity investments in other comprehensive income (Currently no such choice made), there is no subsequent reclassification, on sale or otherwise, of fair value gains and losses to the Statement of Profit and Loss.

(iii) Impairment Of Financial Assets

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

(g) Impairment Of Non-Financial Assets

The other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(h) Non-Current Assets Held For Sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

Non-current assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal Company classified as held for sale continue to be recognised.

(i) Borrowings

Borrowings are initially recognised at net of transaction costs incurred and measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the effective interest method.

(j) Borrowing Costs

Interest and other borrowing costs attributable to qualifying assets are capitalised. Other interest and borrowing costs are charged to Statement of Profit and Loss.

(k) Provisions And Contingent Liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

(l) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

Based on the Educational Material on Ind AS 18 issued by the ICAI, the company has assumed that recovery of excise duty flows to the company on its own account. This is for the reason that it is a liability of the manufacturer which forms part of the cost of production, irrespective of whether the goods are sold or not. Since the recovery of excise duty flows to the company on its own account, revenue includes excise duty.

PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED

However, Value added tax/ Goods and Service tax (GST) is not received by the company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue. The specific recognition criteria described below must also be met before revenue is recognised.

Sale Of Goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

Rendering Of Services

Revenue from services is recognised in the accounting period in which the services are rendered..

Interest Income

Interest income from debt instruments is recognised using the effective interest rate method.

Dividends

Dividends are recognised in the Statement of Profit and Loss only when the right to receive payment is established.

(m) Employee Benefits

(i) Short-Term Obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Other Long-Term Employee Benefit Obligations

The liabilities for earned leave that are not expected to be settled wholly within 12 months are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the Government Securities (G-Sec) at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

(iii) Post-Employment Obligations

Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service.

The company operates defined benefits plan for gratuity for its employees. Under the plan, every employee who has completed at least five years of service gets a gratuity on departure @ 15 days last drawn salary for each completed year of service. The scheme is funded with an insurance company in the form of qualifying insurance policy.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method. Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- ◆ The date of the plan amendment or curtailment, and
- ◆ The date that the company recognises related restructuring costs"

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- ◆ Service costs comprising current service costs, past-service costs, gains and losses on curtailments and nonroutine settlements; and
- ◆ Net interest expense or income.

(n) Foreign currency translation

(i) Functional and presentation currency

The financial statements are presented in Indian rupee (INR), which is Company's functional and presentation currency.

(ii) Transactions and balances

Transactions in foreign currencies are recognised at the prevailing exchange rates on the transaction dates. Realised gains and

losses on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss. Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of Profit and Loss.

(o) **Income Tax**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses

.Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are excepted to apply when the related deferred income tax assets is realised or the deferred income tax liability is settled. Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are off set where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively."Minimum Alternate Tax credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

(p) **Earnings Per Share**

Basic Earnings Per Share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted Earnings Per Share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares."

(q) **Government Grants**

Grants from the government are recognised at their fair value where there is reasonable assurance that the grant will be received and the Company will comply with all attached conditions. Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to Profit and Loss on a straight - line basis over the expected lives of related assets and presented within other income.

(r) **Critical Estimates And Judgements**

The preparation of financial statements requires the use of accounting estimates which by definition will seldom equal the actual results. Management also need to exercise judgement in applying the company's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving critical estimates or judgement are:

Estimation of Defined benefit obligation - refer note 32

Estimation of current tax expenses and Payable - refer note 29

G. Sensitivity

The sensitivity of the defined benefit obligation to changes in the weighted key assumptions are:

Gratuity:	Year ended 31st March, 2024			Year ended 31st March, 2023		
	Change in assumption	Increase in present value of plan	Decrease in present value of plan	Change in assumption	Increase in present value of plan	Decrease in present value of plan
Discount rate	50 bps	15.94	(14.48)	50 bps	13.38	(12.16)
Salary Escalation Rate	50 bps	14.92	(13.68)	50 bps	12.43	(11.36)

The sensitivity analyses above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period and may not be representative of the actual change. It is based on a change in the key assumption while holding all other assumptions constant. When calculating the sensitivity to the assumption, the method (Projected Unit Credit Method) used to calculate the liability recognised in the balance sheet has been applied. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous period.

35 Fair Value Measurement

Financial Instrument by category and hierarchy

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

1. Fair value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to short term maturities of these instruments.
2. Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value of such instruments is not materially different from their carrying amounts.

The fair values for loans and security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counter party credit risk.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

36 Financial Risk Management

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is set by the Managing Board.

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument.

The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

The Company manages market risk through a treasury department, which evaluates and exercises independent control over the entire process of market risk management. The treasury department recommend risk management objectives and policies, which are approved by Senior Management and the Audit Committee. The activities of this department include management of cash resources, implementing hedging strategies for foreign currency exposures like foreign exchange forward contracts, borrowing strategies and ensuring compliance with market risk limits and policies.

Market Risk- Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

According to the Company interest rate risk exposure is only for floating rate borrowings. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

(a) (iii) Market Risk- Price risk

(a) Exposure

The exposure to equity securities price risk arises from investments held and classified in the balance sheet either at fair value through OCI or at fair value through profit and loss. The Company does not have any exposure to equity/securities.

(b) Sensitivity

The Company does not have any exposure to equity/securities. So no sensitivity analysis is done.

(c) Foreign Currency Risk Sensitivity

A change of 5% in Foreign currency would have following Impact on profit before tax

₹ in lakhs

USD	(3.20)	3.20	(2.35)	2.35
Increase / (decrease) in profit or loss	(3.20)	3.20	(2.35)	2.35

Credit Risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses financial reliability of customers and other counter parties, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of financial assets. Individual risk limits are set and periodically reviewed on the basis of such information.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- Actual or expected significant adverse changes in business,
- Actual or expected significant changes in the operating results of the counterparty,
- Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- Significant increase in credit risk on other financial instruments of the same counterparty,
- Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees or credit enhancements.

Financial assets are written off when there is no reasonable expectations of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized as income in the statement of profit and loss.

The Company measures the expected credit loss of trade receivables and loan from individual customers based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, loss on collection of receivable is not material hence no provision considered.

Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities) and cash and cash equivalents on the basis of expected cash flows.

(i) Financing Arrangements

The Company closely monitors liquidity position and arranges for the funds in anticipation in case of need.

37 Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company's policy is to keep the gearing ratio between 20% and 40%. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents, excluding discontinued operations.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2024 and 31 March 2023.

38 Earnings Per Share (Eps)

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of Equity shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the parent (after adjusting for interest on the convertible preference shares) if any, by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares. The following reflects the income and share data used in the basic and diluted EPS computations:

₹ in lakhs

Particulars	Year Ended 31.03.2024	Year Ended 31.03.2023
Earnings Per Share has been computed as under:		
Profit/(Loss) for the year	95.97	(503.90)
Weighted average number of equity shares outstanding	10259750	10259750
Earnings Per Share (₹) - Basic (Face value of Rs. 10 per share)	0.94	(4.91)
Diluted earning per share is same as basic earning per share.	0.94	(4.91)

39 As per section 135 of the Companies Act, 2013, amount required to be spent by the Company on Corporate Social Responsibility (CSR) during the year ended March 31, 2024 is INR NIL (31 March 2023: INR NIL), computed at 2% of its average net profit for the immediately preceding three financial years. The Company incurred an amount INR NIL during the year ended March 31, 2024 (31 March 2023: INR NIL), towards CSR expenditure.

40 The company does not hold benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

41 The company has borrowings from banks on the basis of security of current assets, so it discloses that quarterly returns or statements of current assets filed by the company with banks or financial institutions are in agreement with the books of accounts.

42 The company has not been declared wilful defaulter by bank or financial Institution or other lender.

Reason for variance

- Usage of Internal accruals in new projects caused decline in current ratio and increase in net capital turnover ratio.
- New Term loans for new projects/temporary working capital caused increase in the ratio.
- Increase in inventory reduces the ratio.
- Net profit/ loss in the current year caused improvement/decline in the ratio.
- Increase in trade payables reduces the ratio.
- Variance in the ratio is market driven.
